Technical data sheet

Our current list of colour profiled media for latex printing

BUY ONLY WHAT YOU NEED

All media in our latex range is available "buy the metre" - just buy what you need, when you need it. No need to store odds and ends or lose all your margin in buying full rolls for small jobs.

Using our in house HP Latex 25500, we have been evaluating media and creating custom profiles to help you get the best out of your latex printer. The list of products below have been thoroughly tested and found to work well with the latex ink technology.

TECHNICAL ADVICE AND SUPPORT

These products are from our range of solvent printable media. We have tested and profiled them for use on the HP latex device. Other products in our solvent range *MAY* work on the latex printer. Please call **01753 696977** for the Southern Office or **01709 829800** for the Northern Office, or email **sales@allprint.co.uk** for the latest information, if you would like to obtain profiles and recommendations for our media, or if you need a profile for one of our media which is not listed below.

Our current list of colour profiled media for latex printing:

LG bio-degradable films:

LB0002M
